

# Become a Great Networker in just one hour!

*Memorable, fast in-house training*

Highly engaging and memorable.

Really great presenter who makes networking seem very easy and removes a lot of the barriers.

If you are worried or apprehensive about networking, you have to see this guy speak.

- Fearful?... Uncertain?... about networking?
- Become a confident, effective and motivated networker... Fast!
- The route to valuable long-term business!

Colin Tweedie of CJT Consulting spent 30 years as a highly-successful lawyer and business generator in four of the largest law firms in the country. It was here he learned, first-hand, the power of effective networking as a wonderful way of acquiring clients and valuable long-term business.

Inspired by his success in such a competitive industry, Colin retired from the Law to form and run his own business development consultancy. He specialises in going in-house to train people to become great face-to-face networkers. He turns the fearful and uncertain (most people) into confident, effective and motivated networkers - and in as short a time as possible. Indeed, this talk is believed to be the only one in the UK which covers face-to-face networking comprehensively in only 60 minutes.

---

“Fantastic! Worth every minute. Colin nailed the most important aspects of networking and explained in simple terms how networking can improve your business network.”

*“It was perfect for the full range of experience within the room.”*

“You can always tell when training is effective as the time just flies and you go away with points that are easy to remember.”

*“Snappy, entertaining, memorable, fun and informative”*

*“Colin was very engaging and the mind map was extremely informative. A lot of advice was taken on in just one hour and I now feel more confident about approaching my next networking event.”*

“Go see it. It's brilliant. And you'll definitely learn something”
